

Environmental Policy Statement

The Management of Granta Automation Ltd firmly believes in minimising impact on the global environment and conforming in all aspects to the relevant standards and current legislation.

The emphasis of the company is on providing quality solutions. To achieve this, Granta Automation Ltd has implemented an Environmental Review System which has been designed to assist the company in becoming greener in its operations.

Granta Automation Ltd acknowledges that continual improvement of its environmental performance is a key objective. To ensure the continued effectiveness of this, the company and its Environmental Action Plan will be subjected to internal assessments on a regular basis.

This policy has the full support of the Senior Management team and for its benefits to be fully realised places an onus on **all employees** who are required to abide by the policy, all procedures and codes of practice laid down by the Senior Management team in the Environmental Review. Granta Automation Ltd works to ensure that personnel make every effort to adhere to all written procedures.
